To Whom It May Concern :

Our daughter has been attending Little Angels School House since Sept, 2013. We have been very happy with the attention and care that she has received over the past six months while under the supervision of Rima Numan and her staff.

Sending our daughter to a day care facility was a tough decision for our family. Having spent her first 15 months with a dedicate caregiver at home, we wanted to ensure that she smoothly transitioned to a day care facility which provided her the much needed learning and developmental opportunities but also the same level of love and individualized attention. Our house broker recommended Little Angels School House and after visiting Rima, we knew it was a perfect fit for our family. Plus, the school timings worked perfectly with the long commutes both me and my husband have to the city.

Our daughter absolutely loves Rima, her staff and enjoys the company of her school friends. It is especially comforting to go to work feeling that our child is spending her day learning, playing and mainly being loved. I usually have to lure my daughter with something or the other to get her back home every evening as she is having so much fun in school and loves being there.

Overall, we have would highly recommend Rima Numan and the Little Angel School House.

Sincerely,

Prachi and Jayram Padmanabhan
